Summary

Passionate Full Stack Web Developer with a strong foundation in both frontend and backend technologies. Experienced in developing clean and maintainable code using React.js, GraphQL, Node.js, and more. Skilled troubleshooter and problem solver. Proven ability to collaborate effectively in agile environments. Excited about creating innovative solutions to complex challenges.

Experience

Full Stack Developer [Orlando, FL](#) Millennial Specialty Insurance *November 2023 – Present*

- Crafting robust web applications with ASP.NET, React, Next.js, Material-UI, Tailwind CSS, and Bootstrap for seamless user experiences.
- Leveraging C# for backend development, ensuring efficiency and scalability in solutions.
- Collaborating closely with team members to meet project milestones and keep projects on track.
- Designing and implementing RESTful APIs to facilitate smooth data transfer between frontend and backend systems.
- Actively engaging in code reviews, offering valuable feedback, and maintaining high code quality standards.
- Embracing agile methodologies to deliver projects efficiently and continuously improve processes.
- Developing reusable components to streamline development and enhance code maintainability.
- Resolving issues across the full stack to ensure smooth operation of web applications.

Freelancer [Orlando, FL](#) *June 2022 – Present*

- Proficient in crafting clean and maintainable code using HTML and CSS, with a strong foundation in React.js; actively participated in code reviews to ensure quality standards.
- Troubleshooting and debugging user authentication, ensuring seamless frontend and backend integration.
- Contributed proactively to sprint planning and daily stand-up meetings, demonstrating adherence to agile methodologies.
- Designed and implemented a reusable navigation bar component in React, enhancing the user experience of the company landing page.
- Leveraged vanilla JavaScript for the development of internal company tools, showcasing versatility across frontend technologies.

Automotive Technician [Sanford, FL](#) Autonation Ford *April 2021 – October 2023*

- Diagnosed, repaired, and maintained engines in Ford vehicles.
- Utilized cutting-edge diagnostic equipment and technical knowledge.
- Troubleshoot complex engine issues and implemented efficient solutions.
- Ensured adherence to industry safety standards and strict quality control.
- Demonstrated exceptional attention to detail and strong problem-solving abilities.
- Worked under pressure in fast-paced environments, emphasizing teamwork and collaboration.

Projects

The Mars Market

<https://github.com/Rilaey/The-Mars-Market> | <http://www.themarsmarket.com/>

- Developed the backend using GraphQL mutations, MongoDB Atlas, and implemented paypal integration.
- Created custom reusable components for the frontend using React and Tailwind CSS.
- Collaborated in troubleshooting sessions and paired coding with team members.

Backyard Sports

<https://github.com/Rilaey/Backyard-Sports> | <https://backyard-sports.herokuapp.com/>

- Linear Built the backend and implemented handlebars templates for this web application.
- Utilized Handlebars, CSS, Bootstrap, and JavaScript for the frontend.
- Employed Node.js, Express, MySQL with Sequelize, and Socket.io for the backend.

Education

University of Central Florida. [Orlando, FL](#) Boot Camp Certificate *Aug 2022 – Mar 2023*

- Completed a 24-week intensive program focused on technical programming skills.
- Gained expertise in HTML5, CSS3, JavaScript, Node.js, MySQL, MongoDB, Express, and ReactJS.

Universal Technical Institute *Exton, PA* Certificate Aug 2016 – Nov 2017

- Completed a 1-year and 6-month automotive program with a focus on Ford automotive technology.
- Developed critical thinking and problem-solving skills in the field.
